# AFRICOLOGY®

Our spa and treatment rooms in the Botswana and Zambia lodges and camps use Africology products.

**Africology™** is an organic and ethical range of skin care products. Free from commonly used cosmetic chemicals, Africology uses the healing essences of South African indigenous plants including Rooibos, Aloe Ferox, Marula and African Potato. Rather than use synthetic perfumes, therapeutic essential oils are instead used to fragrance the products. Africology products are not tested on animals, nor do they use any animal products.

All Africology products are biodegradable and free from toxic chemicals, making them safe to use in even the most environmentally sensitive environments such as the African bush. All packaging is recyclable and local manufacturing is supported to reduce carbon footprint. Africology practices fair trade and shows great social responsibility through supporting various local projects.

SANCTUARY  
CHOBÉ CHILWERO  
CHOBÉ NATIONAL PARK

### SANCTUARY CHOBÉ CHILWERO

A luxurious lodge in the heart of the African bush, Sanctuary Chobe Chilwero is the ideal place to visit after a long safari. This is the perfect spot to relax while enjoying the gourmet food that the lodge has become known for, lounging in the split-level swimming pool or unwinding with a pampering session in the only full service spa on the Botswana safari circuit.

Sanctuary Chobe Chilwero borders Chobe National Park, home to the largest remaining population of elephants in the world. Over 80,000 of these gentle giants roam between Zambia, Zimbabwe, Namibia and Botswana - and they can be seen close to the lodge most days of the year. The park is also famous for the huge herds of buffalo that live in the towering teak forests that are another characteristic of the area.

Shaded by mature trees, Sanctuary Chobe Chilwero is a riverside retreat in the heart of the bush. This luxurious lodge has just fifteen guest cottages, each with two showers - one inside and one outside, as well as a freestanding bathtub. Every cottage has a private garden, complete with hammock, where guests can sip cocktails after a busy day of game viewing and spa treatments, or enjoy a private dinner served under the African sky.

CHOBE NATIONAL PARK

### SANCTUARY CHOBE CHILWERO SPA

The first full service spa on the Botswana safari circuit opened its doors at Sanctuary Chobe Chilwero in 2008.

Inspired by the abundance of nature that surrounds the lodge, the spa has drawn from that beauty to develop a range of treatments and rituals of the highest quality to relax, restore and revitalise guests. Authentic African design has been integrated with the natural elements surrounding Sanctuary Chobe Chilwero. Great care has been taken to select only products, treatment methods and practices that are environmentally friendly.

The luxurious facilities include an indoor spa bath, Vichy showers, hydrotherapy, plunge pool, relaxation area and private treatment rooms, one of which is elevated in the treetops for incredible views.

Treatments are provided by trained spa professionals using environmentally-friendly products from the Africology range.

Guests should ideally book a three night stay at Sanctuary Chobe Chilwero in order to experience everything the lodge has to offer, including game drives in the Chobe National Park, cruises on the magnificent Chobe River and, of course, the spa.

SANCTUARY  
CHIEF'S CAMP  
OKAVANGO DELTA

### SANCTUARY CHIEF'S CAMP

Sanctuary Chief's Camp is a luxury tented camp located on Chief's Island in the exclusive Mombo Concession, part of the world-renowned Moremi Game Reserve. This area is known as the "predator capital" of Africa and is also home to large herds of elephant and buffalo.

The twelve guest pavilions are hidden away in a jackalberry and sausage tree woodland that is characteristic of the area. All have their own private decks and indoor and outdoor showers. Generously draped mosquito nets and traditional ceiling fans also feature to ensure comfort at night.

Sanctuary Chief's Camp surrounds an ebony grove where a comfortable living area with an extensive wooden deck overlooking the plains has been built. The dining area surrounds a fire pit on the very edge of the Piajio plains so that guests can continue their game viewing even when they are enjoying the finest cuisine and wines for which Sanctuary Chief's Camp is justly famous.

In addition to great game viewing experiences, guests are also able to indulge in invigorating treatments at the Sanctuary Chief's Camp treatment room, a must after a long day in the African bush. Everything about the camp and treatment room is environmentally friendly, including the Africology products which are available in the camp rooms and the spa treatment range that is used in the treatment room.

SANCTUARY  
SUSSI & CHUMA  
VICTORIA FALLS

### SANCTUARY SUSSI & CHUMA

Sanctuary Sussi & Chuma is just a short drive away from the world-famous Victoria Falls. The lodge itself is an exclusive haven in the heart of Mosi-oa-Tunya National Park which, in addition to the mighty roar of the Victoria Falls, also boasts a wide variety of game as well as countless opportunities for adventure.

Built on two levels on a dramatic bend in the Zambezi, the main lodge is perched in giant ebony trees. Guests can relax in the swimming pool, or enjoy a drink in the elevated bar. The twelve air-conditioned tree houses are connected by wooden walkways and all enjoy superb views over the river. In addition, there are two private houses available. Each has two bedrooms, a dining area and deck with plunge pools, as well as a private chef and house staff.

Guests staying at Sanctuary Sussi & Chuma are able to indulge in a range of spa treatments - including massages, facials and manicures - while enjoying spectacular views over the Zambezi River. The treatment room has been constructed on stilts on the riverbank, providing guests with up close views of African wildlife while they are being pampered by a trained Africology spa therapist. Where else in the world could you enjoy a traditional Ukuchina Zambian Massage while watching a pod of hippos float by?
