GAME VIEWING AND ACTIVITIES

The Mosi-oa-Tunya National Park is one of Zambia's smallest parks, but provides loads of game viewing including an array of birds. The park has a relaxed atmosphere due to the lack of predators. Guests may also be lucky enough to see a rare sighting of the wild dogs that on occasion pass through the park. Key wildlife include: elephant, buffalo, zebra, giraffe, wild dog, impala, crocodile, hippo, baboon, vervet monkey

The following activities are included in your stay:

Game Drives: Sanctuary Sussi & Chuma is set on the edge of Mosi-oa-Tunya National Park. Here the highly trained safari guides take guests on game drives in custom-built 4 x 4 safari vehicles to see plains game.

Canoeing on the Zambezi: Guests have the opportunity to enjoy a two hour canoeing excursion on the Zambezi River. The canoeing trip can be done in the morning or afternoon. The activity will start from the lodge and can be combined with either a game drive or a boat cruise. Canoeing is offered all year but is weather dependent. Dry bags will be provided for valuables. Minimum age is 15 years.

Tour of the Victoria Falls – Zambia side: Just a short drive away from the world famous Victoria Falls, the lodge offers guests a walking tour of The Falls. The Falls make a constant roar and are accompanied by a cloud of brilliant spray where the mile-wide Upper Zambezi falls 300 feet into the Lower Zambezi.

Walking Safaris: There can be few more thrilling ways to experience and understand African wildlife, the bush and ecosystem as a whole than by being on foot on a walking safari. Guests will also be accompanied by an armed National Parks ranger. Walking safaris last about two hours and are conducted at a leisurely pace. Morning walks will depart at 6:30 am and will include a break with tea, coffee and snacks. The afternoon walk will commence at 16:00 and finish at a special sundowner spot where guests will be served drinks and canapés while enjoying the magnificent sunset.

Sundowner Cruise: A Zambezi River cruise is a great way to spend a few hours before drifting back to the lodge, a warm shower and delicious dinner. Sanctuary Retreats' boats are specially designed and the guide will take the boat through a series of grade 2 rapids before finding a spot to beach for a break and a sunset cocktail.

Local school & village tour: Nakatindi village is located 6km from Livingstone and 5km from Sanctuary Sussi & Chuma. Village scouts and guides will show guests around the village. This village comprises of around 6,000 people who live in simple mud and brick houses. To the edge of the village sits the Nakatindi Community School, which is responsible for the education of its 744 children where at least 50% of them are orphaned or considered vulnerable.

Fishing: The fishing season generally opens on 1st March each year. It closes annually from the 1st December until March. (This is the local Fisheries' regulations and it is enforced by the Zambian Wildlife Authority.) All fishing is on a strict "Catch and Release" policy as we are in the national park. Fishing can either be from the river bank in front of the lodge; however it is preferable to go out on the river in a boat as it is a safety risk to fish off the river bank because of the crocodiles. Sussi and Chuma's 3 boats are used for fishing as well as other activities. Guests specifically wanting to do fishing should ideally request and pay for a private boat for fishing. That said we will be happy to accommodate fishermen as best as we can. Please note, on a full camp, all boats are used for the evening sunset cruise.

PHILANTHROPY PROJECTS

Nakatindi Village and school: Sanctuary Retreats Philanthropy (SRP) began working with the community and school in July 2010. Our goal is to identify and sponsor long-term, viable and self-sustaining projects that will have the support of both our visitors and our staff. We work closely with the communities and school to determine their needs and improve their general well-being through empowerment, improved infrastructure, skill development and the overall enhancement of health, education and welfare for the future. Our past projects include an ongoing school meals program to feed each child attending Nakatindi Community School one square meal a day. SRP has also expanded the school to incorporate grades 8 and 9 by building a new 1x2 classroom block, constructed a new medical clinic to serve the health needs of the community and implemented various training programs within the school and community. These include garden workshops to aid the school vegetable garden and entrepreneurship and business training for members of the community to promote income generation.

Pack for a purpose: We are proud members of Pack for a Purpose, an initiative that allows travellers like you to make a lasting impact in the community at your travel destination. If you save a few kilos of space in your suitcase and bring supplies for area schools or medical clinics in need - you'll make a priceless impact in the lives of our local children and families. Please click on this link: <http://www.packforapurpose.org/destinations/africa/zambia/sanctuary-sussi-chuma> to see what supplies are needed for our project.
